

兽医咨询 Veterinary Consultations

强烈推荐在撰写动物实验方案之处咨询兽医建议。 Consultation with ASC Veterinarians is strongly encouraged and should take place early in the protocol development process, well before the application is submitted for IACUC review.

兽医支持包括以下方面 Veterinary assistance is particularly helpful in the following areas:

- 动物模型及品系选择 Animal model and species selections
- 手术及非手术技术精化 Refinement of surgical and non-surgical techniques
- 药物选择 Therapeutic drug regimens
- 镇痛、止痛、麻醉剂的使用建议 Appropriate use of sedation, anesthesia and analgesia
- 术前、术后照料及监测 Pre-, peri- and post-operative care and monitoring
- 特殊饲养护理 Specialized husbandry needs
- 饲养空间的计划 Availability of vivarium space

除此以外中心兽医还可提供 ASC Veterinarians can also provide:

- 方案设计及合理技术支持指南 Guidance regarding study design and appropriate techniques
